

manage data

reduce **Costs**

flexible access

- Improve efficiencies - reduce time spent looking for, retrieving and re-filing documents
- Improvement in customer service, no more delays in finding documents
- Complete audit trail for documentation
- Free space – don't use costly office space to store vast quantities of documents

- access documents from any location using a web browser
- upload and view data in native format e.g. tiff, pdf, jpeg, word, excel, powerpoint and many more
- index with meta data and associate with other documents
- add notes, messages & assign tasks
- fast, flexible searching
- secured on Pipex servers

Cleardata provides document management software and solutions throughout the UK. Whatever your business, Cleardata can provide a solution to improve your efficiencies and reduce your costs.

Our online document management system, Cleardata DART, provides flexible, secure access to documentation for business users. With no upfront capital investment, just a low cost payment, from as little as £10 per day.

Managing your documents online provides a flexible solution, allowing users to access, download or upload documents from any location.

Documents can be associated with other images. Users can add notes and assign messages or tasks to other users and a full audit trail is provided.

To find out more or arrange a demo of Cleardata Dart, call 0800 043 5724.
